	Name of assignments or projects:		Application Performance Monitoring (APM) Migration Project		
	Year:		2025-26		
	Location:		Bangalore, Karnataka		
	Client:		EY		
	Main project features:		The APM scope involves transitioning from AppDynamics and SmartBear synthetic monitoring tools to a unified Elastic APM Observability solution. This will cover all EY-managed applications and infrastructure currently monitored by AppDynamics and		

	SmartBear, with a focus solely on enabling APM capabilities (traces, metrics, and relevant telemetry)
Positions held:	Program Manager
Activities performed:	■ Maintaining a complete application inventory with ownership and migration status. ■ Planning migrations in manageable waves based on business criticality. ■ Tracking readiness prerequisites (agent compatibility, access, security, platform availability). ■ Ensuring validation criteria are consistently applied so that traces, metrics, and telemetry in Elastic are equivalent to or better than the legacy monitoring. ■ Managing governance through regular status reporting, RAID reviews, CAB coordination, and executive communications. ■ Driving timely sign-offs from application owners and ensuring a smooth transition to operations after hypercare.
