

KRUSHNA CHANDRA DEBASHRAM

Database Solution Architect

Design | Development | Scalability | High Availability | Performance Tuning

Mobile : +91-9874634162 e-mail : krushnha_deb@rediffmail.com Place : Bengaluru, India

Professional Summary

Database solution architect with 17+ years' experience in **MSSQL** Database designing and delivering scalable, secure, highly available, and high-performance database solutions across enterprise environments. Expertise in database **architecture, design, administration, security, high availability HA/DR, performance optimization**, data migration, modernization, cloud adoption and operation.

Worked across large scale Government, Insurance, Financial, ALM, Logistic & shipping, LMS, Integration Tool and enterprise environments.

Strong experience in leading critical incidents, stakeholder communication and building high-performing global DBA teams and supporting mission-critical enterprise environments with 24x7 operational.

Core Competencies

Leadership & Strategy

- Database Strategy
- Root Cause Analysis (RCA)
- Team Leadership
- Cross-Functional Leadership
- 24x7 Global Database Operations
- Capacity planning
- Team Mentoring
- Availability Management

Database Platforms

- Microsoft SQL Server (2008–2022)
- Azure SQL Database
- PostgreSQL
- MongoDB

SQL Server Engineering

- Database Architect
- Database Development
- Read-Only Secondary Replicas
- Enterprise Backup & Recovery
- Database Design
- High availability (Always On Availability Groups)
- Database Migration
- Log shipping

High Availability, Disaster Recovery

- Always on Availability Groups (AOAG)
- Log Shipping
- Backup & Recovery Solutions
- Failover Cluster Instances (FCI)
- Transactional Replication
- Disaster Recovery Testing

Database Security

- Database Security Hardening
- Transparent Data Encryption (TDE)
- Row-Level Security
- Database Auditing & Monitoring
- Role-Based Access Control (RBAC)
- TLS
- Always Encrypted
- Dynamic Data Masking
- Vulnerability Assessment & Remediation
- Privileged Access Management

Performance, Scalability & Optimization

- Database Performance Tuning
- Table Partitioning
- Data Archiving & Retention Strategy
- Query & Index Optimization
- Data Compression
- Capacity Planning

Automation, Monitoring

- PowerShell Script
- SQL Server Agent Automation
- DataDog DB Health Monitoring tool
- Diagnostics & RCA
- Python & Golang Scripting
- DB Alert
- Extended events
- Trace, Audit

Cloud Database Solutions

- Azure SQL Managed Instance
- Azure Virtual Machines (IaaS)
- Cloud Migration & Modernization
- Azure SQL Database
- Hybrid Cloud Architecture
- Hybrid Disaster Recovery Solutions

Other Technical Skills

- BI, Reporting & Analytics: SSIS, SSRS, Power BI, Tableau
- Programming & Scripting: Python, Golang, C#, T-SQL, PowerShell
- Big Data: Knowledge on Hadoop, Hive, Pig and Data

Career Timeline

- Mar 2026 – Present | Database Architect | EpicMinds IT Pvt. Ltd. | Bengaluru, India
- Nov 2023 – Feb 2026 | Senior Manager-Database Services | ESDS Software Solution Ltd. | Bengaluru
- Nov 2020 – Nov 2023 | Database Architect | Cygnet Infotech Pvt. Ltd. | Ahmedabad
- Jun 2019 – Apr 2020 | Database Architect | Mappls IT Services Pvt. Ltd. | Kolkata
- Oct 2013 – May 2019 | Database Architect | Kovair Software Pvt. Ltd. | Kolkata
- Mar 2013 – Sep 2013 | SQL Architect | InRhythm Solutions Pvt. Ltd. | Hyderabad
- Aug 2011 – Feb 2013 | Database Architect | Kovair Software Pvt. Ltd. | Kolkata
- Sep 2008 – Aug 2011 | Advisory System Analyst | IBM India Pvt. Ltd. | Kolkata
- Oct 2005 – Sep 2008 | Senior Software Engineer | NIIT Limited | New Delhi
- Mar 1998 – Sep 2005 | Programmer-IT Executive | Sentinels Security Pvt. Ltd. | New Delhi
- Jan 1997 – Feb 1998 | System Administrator | First Flight Couriers Ltd. | New Delhi

Notable Accomplishments

In EpicMinds Technologies for Centre for e-Governance

- Supporting state data centre Database team for multiple mission-critical Government applications, ensuring platform stability, scalability, and high service availability.

- Provided database architecture and performance optimization support to various department application. Improved the performance by 40%.
- Led financial data analysis assignment for the Finance Department, including data acquisition, cleansing, transformation, and report generation.
- Successfully resolved high-priority escalations related to database performance, scalability, and availability across enterprise applications.

In ESDS Software Solution for Centre for e-Governance

- Supporting state data centre Database team for multiple mission-critical Government applications, ensuring platform stability, scalability, and high service availability.
- Provided enterprise database maintenance, auditing, monitoring, and performance optimization frameworks.
- Led complex heterogeneous database migration programs including Oracle-to-SQL Server, Oracle-to-PostgreSQL, and MySQL-to-MongoDB migrations using Python.
- Improved database performance of various applications by data archival, code optimization , database maintenance by 30%.
- Led the resolution of highly critical and escalated database issues through cross-functional collaboration, ensuring rapid service restoration and long-term stability
- Did the capacity planning by analyzing the resources utilization and recommended for the upgradation of server/cpu/ram/storage/vm core etc.

In Cygnet Infotech for SouthAfrica Insurance project

- Architected and executed database scalability initiatives that enhanced application performance by 30%, fault tolerance, and transaction processing capacity.
- Led enterprise-wide database performance optimization programs through query tuning, indexing strategies, and infrastructure modernization.
- Implemented data archival and capacity planning.
- Did the Azure migration.

Mapps IT Solution

- Improved production database reliability through proactive monitoring, code optimization, and preventive maintenance practices.
- Designed and delivered database modernization initiatives, upgrading legacy SQL Server 2012 environments to SQL Server 2017, enhancing security, performance, and supportability.
- Developed enterprise data warehouse solutions using SSIS, enabling centralized reporting and business analytics.

Kovair Software

- Implemented scalable Data Lake and database architectures supporting enterprise analytics and long-term business growth.
- Served as Database Solutions Architect and SQL Server SME, implementing data archival strategies that improved application performance and governance compliance.
- Increased ALM product platform scalability from approximately 50 to over 300 concurrent users through database redesign, performance tuning, and workload optimization.

In IBM India for MAERSK shipping and transport project

- Served as Database Technical Lead for enterprise application modernization initiatives.
- Led end-to-end database architecture, design, and migration from DB2 to SQL Server, ensuring data integrity and seamless business continuity.

NIIT Ltd. for Campusview project

- Delivered multiple enterprise database migration projects, modernizing legacy platforms and enabling successful adoption of SQL Server technologies.
- Ensured high data quality, migration accuracy, and minimal operational disruption during transition programs.

Education

- MCA from Guru Jambheshwar University, Hissar in the year 2009.
- Bachelor's degree in Physics (Honors) from University of Ranchi in the year 1994

Certifications

- Executive Diploma in Leadership and Management from Udemy in year 2025.
- Operational Management for business, key techniques from Udemy in year 2025
- Data Loss prevention from Udemy in year 2025
- Data Security Strategy for organization from Udemy in year 2024
- Data Engineering on Microsoft Azure 2022 from Udemy in year 2023
- PowerBI Desktop & Services from Udemy in year 2023
- Python, Tableau from Udemy in Oct 2020
- Online course on Big Data and Hadoop from AcardGlid in year 2016
- Diploma in Web Programming using JAVA & Advanced Web technology from SSIS in year 2003
- Diploma in Computer Application and Data Processing from Lakhota Computer in year 1996
- Diploma in Total Information System Management from Lakhota Computer in year 1996

Best regards,

Krushna Chandra Debashram
