

SHREYA PANDIT

India | Phone: +91-9980842146 | Email: Shreya.Pandit@ibm.com

PROFESSIONAL SUMMARY

Database specialist with 8+ years of IT industry experience in designing, developing, testing, and supporting large-scale database systems. Proven expertise in database migration, performance optimization, and T-SQL development across MSSQL, PostgreSQL, Oracle, and Teradata platforms. Strong background in Azure cloud technologies, database administration, and enterprise-level project delivery. Exceptional problem-solving capabilities with demonstrated ability to troubleshoot complex database issues.

TECHNICAL SKILLS

Databases:	MSSQL, PostgreSQL, Oracle, Teradata, MongoDB, Microsoft Azure Synapse
Languages:	T-SQL, PL/SQL, Python, Shell Scripting, Bash
Tools & Platforms:	Azure Synapse, AWS Aurora, Ora2Pg, SSRS, Git, Jira, Oracle Enterprise Manager, Query Store
Core Competencies:	Database Migration, Performance Tuning, Index Optimization, Schema Design, Data Validation, Backup & Recovery, Security Management

PROFESSIONAL EXPERIENCE

Application Developer: RDBMS
IBM, India | Feb 2023 – Present

Orchestrated database migration from Teradata to Azure SQL Server, converting legacy database objects and optimizing performance across multiple environments. Led performance tuning initiatives on Oracle and PostgreSQL platforms, achieving significant query optimization improvements.

Key Achievements:

- Successfully migrated enterprise database from Teradata to Azure SQL Server; converted 100+ stored procedures and database objects
- Optimized slow-running queries/stored procedures; improved performance by analyzing execution plans across MSSQL, PostgreSQL, and Oracle
- Designed and developed PostgreSQL objects for Oracle-to-PostgreSQL migration; implemented Azure Synapse pipelines for data integration
- Managed database security; created roles, granted permissions, and implemented access controls for both SQL and non-SQL environments

Application Developer: RDBMS | Database Developer
Telco AT&T, USA | Apr 2023 – Present (Assignment History)

Led database development and migration initiatives across multiple enterprise projects. Managed complex data migrations, schema conversions, and performance optimization for mission-critical telecommunications applications.

Projects & Contributions:

- GPM (Cogcore) & Nexxus Core: Managed end-to-end Oracle-to-PostgreSQL migration; built Azure Synapse pipelines; created roles and privileges management
- SAART Web: Led Teradata-to-Azure SQL Server migration; optimized complex queries and created role-based access controls

Senior Software Engineer (Database) | Software Engineer (Database)
Excelsoft Technologies, India | Sep 2019 – Feb 2023

Delivered high-impact database solutions for enterprise learning management and e-learning platforms. Specialized in database schema design, performance optimization, and cross-platform migrations for Pearson and MyITLab projects.

Key Projects:

- Pearson Learning Services LMS: Executed MSSQL-to-PostgreSQL migration; created 50+ data fix scripts; performed index analysis and partition optimization
- GradeIT Tools: Migrated MSSQL to AWS Aurora PostgreSQL; developed schema scripts; optimized query performance and implemented index strategies
- FramerSpace (UNESCO-MGIEP): Designed MongoDB schemas; performed index analysis and performance tuning for NodeJS API integration

EDUCATION

Bachelor of Engineering in Information Science
B.V. Bhoomaraddi College of Engineering and Technology, Hubli, India (2017)

CERTIFICATIONS

Microsoft Certified: Azure Database Administrator Associate (2025)
Microsoft Certified: Azure Fundamentals (2025)
IBM Cloud Advocate Essentials (2025)
IBM watsonx Essentials (2024)
IBM Consulting Way Habits - Foundational (2023)

LANGUAGES

English (Fluent) | Hindi (Fluent) | Kannada (Fluent)

RECOGNITION

PAT ON THE BACK Award for outstanding commitment and contribution to project deliveries (2019, 2021)
