TECHNICAL SKILLS

- C#
- .NET Core (6, 7, 8, 9)
- .NET Framework (3.5, 4.8)
- ASP.NET Core Web API
- ASP.NET Core MVC
- Angular (16 - 19)
- JavaScript
- SQL Server
- Oracle 19C
- Entity Framework Core
- LINQ
- REST APIs
- Clean Architecture
- MediatR
- CQRS
- Agile / Scrum

EDUCATION

Bachelor of Computer Science Engineering
Nalanda Institute of Technology, BPUT
2014 - 2018 | CGPA: 6.91

.NET Full-Stack Developer

.NET Full-Stack Developer with 7+ years of experience at Brisa Technologies (Client - Viatris), Anthology, and UMSM Technology. Skilled in building scalable web applications using **C#, .NET Core/MVC, Angular, REST APIs, and SQL Server**. Experienced across SDLC, Scrum, clean architecture, and problem-solving, focused on delivering high-quality, business-driven solutions.

WORK EXPERIENCE

Senior Software Developer

Brisa Technologies Pvt. Ltd. (Client - Viatris) | May 2024 - Present

- **Led full-stack development** of enterprise applications using Angular 16+, .NET Core 7/9 and SQL Server.
- Built **CSM (Cloud Server Management)**, enabling automated server up/down control, and independently developed the complete **EMS** application end-to-end; contributed to AMS and V-Coach, improving workflow automation.
- Implemented **Clean Architecture, MediatR**, reusable components and high-performance REST APIs within Scrum teams.
- Resolved security vulnerabilities in AMS and EMS systems, improving system stability.

Senior Associate Software Developer

Anthology International Pvt. Ltd. | Nov 2021 - Apr 2024

- Developed REST APIs, MVC applications, and Angular modules for **Connect - University Management Platform**.
- Designed CRUD features, stored procedures and optimised database performance using Oracle 19C, LINQ and C#.
- Integrated multi-system data exchange through REST services and contributed to Agile ceremonies.

Software Programmer

UMSM Technology Pvt. Ltd. | Feb 2019 - Mar 2021

- Developed business applications using ASP.NET Core, MVC, Entity Framework, and SQL Server across healthcare domains.
- Built **hospital and pharmacy management modules** improving operational efficiency and data accuracy.
- Implemented CRUD operations, LINQ queries, and layered architecture while collaborating with cross-functional stakeholders.

PROJECTS

CSM, EMS, AMS & V-Coach Platform

- Built **CSM (Cloud Server Management)**, enabling automated server up/down operations for infrastructure control and uptime management.
- Independently developed the complete **EMS** application end-to-end, from design through deployment.
- Fixed security vulnerabilities in AMS and EMS, improving stability and compliance.
- Built real-time, scalable workflows using Clean Architecture and MediatR patterns.

Angular 16+, .NET Core 7/9, C#, EF Core, SQL Server, MediatR, Agile/Scrum

Connect - University Management Platform

- Developed REST APIs, Angular modules and MVC apps enhancing student and admin operations.
- Optimised database performance with stored procedures and Oracle 19C.
- Integrated multi-system data exchange via REST services.

ASP.NET Core, Angular, C#, Oracle 19C, LINQ, REST APIs, Agile/Scrum

Hospital & Pharmacy Management System

- Built hospital and pharmacy management modules for healthcare domain clients.

ASP.NET Core, MVC, Entity Framework, SQL Server
