

PROFESSIONAL SUMMARY

Full Stack .NET Developer with 1.5 years of experience in designing, developing, and maintaining enterprise web applications using ASP.NET Core, C#, Blazor Server, SQL Server, and RESTful APIs. Proficient in backend development, database design, JWT-based authentication, and building responsive user interfaces. Experienced in Agile development environments with hands-on exposure to Power BI reporting, SQL-based data analysis, application support, and system monitoring. Strong problem-solving skills with a focus on delivering scalable, secure, and high-performance business solutions while adhering to clean coding and software development best practices.

EXPERIENCE

- Aspire Software Consultancy** Onsite
Full Stack .NET Developer (Full-time) Mar 2026 – Present
 - Full Stack Development:** Working on NEXORA, a Smart Workforce Automation Platform built using ASP.NET Core, Blazor, and SQL Server while following Clean Architecture and Repository Pattern principles.
 - API Development:** Developing RESTful APIs for workforce automation modules including user management, task tracking, and approval workflows.
 - Frontend Development:** Building reusable and responsive UI components using Blazor and Radzen UI with form validation and seamless data binding.
 - Database Management:** Designing and optimizing SQL Server database objects and queries to support scalable application performance.
- Sasken Technologies** Hybrid
Junior Full Stack .NET Developer (Full-time) Feb 2025 – Jan 2026
 - Enterprise Application Development:** Developed and maintained an Access Request Management Portal using ASP.NET Core, Blazor Server, and SQL Server with multi-level approval workflows and role-based access control.
 - Backend API Development:** Designed and implemented RESTful APIs for user management, request processing, and approval workflows, improving operational efficiency.
 - Authentication & Security:** Implemented JWT-based authentication and authorization mechanisms to ensure secure access across application modules.
 - Reporting & Analytics:** Created Power BI dashboards and reports to monitor request trends, approval metrics, and operational performance.

TECHNICAL SKILLS

- Programming Languages:** C#, SQL, TypeScript
- Frameworks & Technologies:** ASP.NET Core, Blazor Server, Entity Framework, LINQ, Repository Pattern
- Web & API Development:** REST APIs, Web APIs, JWT Authentication, Role-Based Authorization
- Frontend:** HTML, CSS, Bootstrap, Angular, Blazor, Radzen UI
- Database:** SQL Server
- Tools & Platforms:** Visual Studio, VS Code, SSMS, GitLab, Postman, Power BI, LabWare LIMS
- LIMS & Laboratory Informatics :** LabWare LIMS (Basic), Laboratory Workflows, LIMS Lifecycle Processes

PROJECTS

- Access Request Management Portal** (Professional Project): Tech Stack: ASP.NET Core, Blazor Server, SQL Server, REST APIs, JWT Authentication. Developed an internal portal to manage employee access requests with a secure three-level approval workflow and role-based access control. Built backend APIs, designed the database schema, and implemented JWT authentication to streamline request processing and improve operational efficiency.
- NEXORA – Smart Workforce Automation Platform** (Professional Project): Tech Stack: ASP.NET Core Web API, Blazor, Radzen UI, SQL Server, Entity Framework Core, JWT Authentication, Clean Architecture. Building a full-stack HR automation platform to simplify employee management and automate organizational workflows. Implemented Clean Architecture with Repository Pattern, role-based authorization, and modular API design. Planned enhancements include an AI-powered HR chatbot and smart analytics dashboard for improved workforce insights and automation.

EDUCATION

- Bapuji Institute of Engineering and Technology**
Bachelor of Engineering - Information Science; CGPA: 7.8 2021 - 2024
- DRR Government Polytechnic College**
Diploma - Computer Science and Engineering; Percentage: 77% 2018 - 2021

CERTIFICATIONS

- Complete ASP.NET Core 9 Course for Busy Developers
- Blazor Deep Dive - Beginner to Advanced (.NET 8)

SOFT SKILLS

- **Problem Solving:** Ability to analyze technical issues and implement effective solutions in software development.
- **Team Collaboration:** Experienced in working with cross-functional teams in Agile environments to deliver project requirements.
- **Communication:** Strong verbal and written communication skills for effective collaboration and documentation.
