OBJECTIVE

- Looking for a challenging position for **Cyber Security & Vulnerability Assessment and Penetration Testing (VAPT)** in a dynamic environment that encourages growth and excellence with the opportunity to work on different projects involving latest technologies.

SUMMARY

- **Over 8 years** of relevant experience in the IT industry having strong skills in **Network & Security, AWS Security, Web Security, Mobile Security, Api Security Testing, Network Device Hardening and Compliance.**
- Working under the guidance of the CISO for **ISO/IEC 27001** implementation and policy creation
- Possess good knowledge of **PCI DSS 4.0 compliance.**
- Responsible for performing **ASV Scan for PCI DSS Compliance** for our valuable client.
- Responsible for performing **VAPT Audit** for our valuable client.
- Responsible for performing **Vulnerability assessment and Penetration testing** of network assets (**Desktops, Servers, Routers, Switch and Firewall**). With the help of tools and manual Analysis and preparing reports.
- Responsible for **Web Application Security Testing, Mobile Security Testing and API Security Testing** with some automated tools and manual testing with help of burp suite and prepare report.
- Performed **Docker security assessments** and container image scanning using Trivy
- Performed **AWS security audits** through manual analysis to identify and mitigate cloud security risks.

Testing Tools:

- **BURP SUITE, POSTMAN, APK TOOL, ACUNETIX, NESSUS, QUALYS, NMAP, WIRESHARK, METASPLOIT, SQLMAP, NIPPER.**

Technical Skill:

- OWASP Top 10, Web Security, Mobile Security, API Top 10, CIS Benchmark, ISO 27001, NIST, PCI DSS 4.0, Hardening, AWS Security, AWS Guard Duty, Amazon Inspector, AWS IAM Access analyzer, AWS cloud Tail, AWS Shield, Amazon Macie, Aws Security HUB, PYTHON Script, Network VAPT, Routing, Switching, and Firewall

ORGANIZATIONAL EXPERIENCE

Organization: Aurionpro Solutions

❖ Duration: 19th May 2025 – Present

❖ Location: Sansad Bhawan Delhi

❖ Role: INFORMATION SECURITY ANALYST

- Working under the guidance of the CISO for **ISO/IEC 27001** implementation and policy creation.
- Managed **third-party audits**, including **Aadhaar** and **ISO 27001** compliance; reviewed external VAPT reports and coordinated with developers and DevOps teams for timely patching and issue resolution
- Responsible for **Internal Web Application Security Testing** with some automated tools and manual testing with help of burp suite and prepare report.
- Responsible for **Internal API Security Testing** with some automated tools and manual testing with help of burp suite, Postman and SoapUI and preparing reports.
- Responsible for **Internal Mobile Security Testing** Static and Dynamic Testing.
- Performed Internal **Docker security assessments** and container image scanning using Qualys and Trivy.
- Implemented **SonarQube** for automated source code review and quality analysis. With the help of the DevOps team.
- Responsible for performing **Internal Vulnerability assessment and Penetration testing of Network Assets (Desktops, Servers, Routers, Switch and Firewall)**. With the help of tools and manual Analysis and preparing reports.
- Responsible for performing **system hardening** and **VAPT** audits.

Organization: Panacea infosec Private Limited

❖ Duration: 22nd Aug 2023 – 16th May 2025

❖ Location: Dwarka Sector 14

❖ Role: Sr. INFORMATION SECURITY ANALYST

- Performed system **hardening** and **VAPT audits** for clients to ensure security compliance.
- Conducted vulnerability assessments and penetration testing of **network assets**, including **desktops, servers, routers, switches, and firewalls**, using automated tools and manual analysis, and prepared detailed reports.

- Executed **PCI DSS** compliance audits, system hardening, and VAPT assessments with tools and manual analysis, generating comprehensive reports.
- Performed **AWS security audits** through manual analysis to identify and mitigate cloud security risks.
- Conducted **web application security testing** using automated tools and manual testing with Burp Suite, preparing detailed vulnerability reports.
- Executed **ASV scans** using automated tools and manual testing with Nmap, documenting findings and recommendations.
- Performed **API security testing** using automated tools and manual testing with Burp Suite, Postman, and SoapUI, and prepared security assessment reports.
- Conducted **Mobile security testing**, including static and dynamic analysis, to identify vulnerabilities and recommend remediation.

Organization: CyberQ Consulting private limited

❖ **Duration: 25th Jan 2022 – 18th Aug 2023**

❖ **Location: Noida 59,**

❖ **Role: INFORMATION SECURITY ANALYST**

- Performed **IS and VAPT audits** for clients to ensure security compliance.
- Conducted **vulnerability assessments and penetration testing of network assets**, including **desktops, servers, routers, switches, and firewalls**, using automated tools and manual analysis, and prepared detailed reports.
- Executed **AWS security** audits to identify and mitigate cloud security risks for clients.
- Performed **web application security testing** using automated tools and manual testing with Burp Suite, generating comprehensive vulnerability reports.
- Conducted **API security testing** using automated tools and manual testing with Burp Suite, Postman, and SoapUI, and prepared detailed security assessment reports.

Organization: Vayam info solution private limited

❖ **Client: Bharti Airtel**

❖ **Duration: 19th July 2019- 9th Sep 2021**

❖ **Location: Gurugram manesar**

❖ **Role: Network Engineer**

- Conducted **vulnerability assessments and penetration testing of network assets**, including **desktops, servers, routers, switches, and firewalls**, using automated tools and manual analysis, and prepared reports every two months.
- Performed **OS, database, and network device hardening** to strengthen security posture.
- Manually reviewed **router, switch, and firewall** configurations to identify vulnerabilities.

- Implemented **CIS Benchmark checklists** to ensure compliance with security standards.
- Coordinated with the network team for timely **patching of identified vulnerabilities**.

Organization: NIIT Technologies Ltd

❖ **Client: DATA CENTER Police headquarter Jharkhand**

❖ **Duration: 25th Sep 2017- 31st May 2019**

❖ **Location: Ranchi**

❖ **Role: Retainer**

- Performed **web application security testing** using automated tools and manual testing with Burp Suite, generating comprehensive vulnerability reports.
- Coordinated with developers to patch vulnerabilities within defined timelines.
