

Alok Kumar Sinha

Technical Architect | Service Delivery Leader | Enterprise Applications

📞 +91 9811511738 | ✉ aloksinha81@outlook.com | 📍 Greater Noida, UP

Professional Summary

Technical Architect with 18+ years of experience in designing, developing, and implementing enterprise-scale software systems across BFSI, Insurance, Government, and Logistics domains. Proven expertise in .NET technologies, cloud solutions, microservices, and Generative AI. Skilled in leading cross-functional teams, managing large-scale projects, and delivering optimized solutions aligned with business goals. Strong background in cloud automation, DevOps, and modern application design patterns.

Core Competencies

- Technical Delivery Management • Service Delivery • Delivery Governance • Stakeholder Management
 - Incident, Problem & Change Management • Application Development & Support • Agile Delivery
 - Resource & Capacity Planning • Risk Management • Azure DevOps • CI/CD • Application Modernization
 - Team Leadership • Customer Engagement • Cloud Architecture • Generative AI Solutions
-

Core Technical Skills

- **Programming & Frameworks:** C#, VB.NET, ASP.NET, MVC, WCF, WPF, .NET Framework, .NET Core, ASP.NET Core, Web API, Entity Framework, LINQ, PLINQ, Angular, Mendix, ServiceNow, Remedy
- **Databases:** MS SQL Server (2005–2022), Oracle 11g, SSRS, SSIS, Replication, High Availability (Clustering, Mirroring, Log Shipping)
- **Cloud & DevOps:** Azure, AWS, CI/CD pipelines, Docker, Kubernetes, ARM Templates, Azure CLI, PowerShell, Helm, Bicep
- **Azure Services:** Azure Functions, App Services, Cognitive Services, Logic Apps, Cloud Design Patterns

- **Methodologies:** Agile (Scrum), Waterfall
 - **Tools:** Visual Studio, TFS, UML, MS Project, MS Visio, Bugzilla, Telerik, DevExpress
 - **Documentation:** FRS, SRS, HLD, LLD
 - **Generative AI:** Microsoft Copilot (Azure AI, GitHub Copilot), Tabnine, OpenAI – applied to log analysis, automation, and intelligent issue resolution
-

Certifications

- Microsoft Certified Technology Specialist
 - Mendix Certified Developer
-

Professional Experience

Tata Consultancy Services Ltd | Technical Architect | Feb 2019 – Present

Project Name : IT Operations and Group management

Client: Semi Conductor Based US company

- Designed and customized employee & group management systems for application operations and management.
- Led L2/L3 support teams (16 members) ensuring SLA compliance and incident resolution via ServiceNow.
- Designed and Developed Application in C#, dotnet core and Rest web API and SQL and deployed them over azure cloud.
- Implemented CI/CD pipelines using Azure Artifacts for seamless deployments.
- Optimized application performance through code reviews, memory management, and in-house utility development.
- Managed project audits and ensured compliance adherence.
- **Generative AI Use Case:** Designed AI-driven log analysis system leveraging NLP to classify logs, detect anomalies, and automate fixes, improving resolution speed and system reliability.
- Applied Azure automation tools (ARM templates, CLI, PowerShell, Helm, Bicep) to streamline provisioning and deployments.

NIIT Technologies Ltd (Now Coforge Ltd) | Technical Lead | Aug 2009 – Feb 2019

Client: SSP Inc (UK) – Insurance Domain

- Led production support for Policy Administration System (PAS).
- Migrated applications from VB to C#.NET and upgraded Oracle DB from 10g to 11g.
- Designed insurance solutions using ASP.NET MVC, Web API, and Oracle DB.

Client: Cetera Financial Group (USA)

- Delivered seamless navigation via Single Sign-On (SSO) and centralized reporting.
- Mentored team members, managed CRs, and ensured quality metrics compliance.

Client: Bechtel Corporation Inc (US)

- Developed transport management and PBRAT applications using .NET, Angular, Node.js, SSRS, and SSIS.
- Built barcode-based tools reducing license renewal costs.

Client: Government of India – Army Postal Banking Service

- Designed SQL Server databases and implemented replication for distributed systems.
- Delivered centralized web-based banking solutions for Army personnel.

Avalon Information Systems Pvt. Ltd. | Software Developer | Feb 2008 – Aug 2009

Client: UNICEF (US) – DevInfo Project

- Developed user interfaces and reporting modules for Millennium Development Goals (MDGs).
- Built tools for data collection, visualization, and monitoring using ASP.NET and SQL Server.

Education

- B.Tech (Computer Science & Engineering) – Dehradun Institute of Technology (2001–2005)- 63.8%
 - 12th (ICSE) – De Nobili School, Mugma, Dhanbad (2000) – 75.5%
 - 10th (ICSE) – De Nobili School, Mugma, Dhanbad (1998) – 82.5%
 - MBA (IT Systems) – Maharshi Dayanand University (Distance Learning Program 2012-2014)
-

Personal Details

- Date of Birth: 26th March 1983
- Marital Status: Married
- Permanent Address: Lalpur, District Dhanbad, Jharkhand
- Emergency Contact: +91 9811161281
