

DILIP KUMAR TRIPATHY

.NET Full Stack Technical Lead | .NET Core / .NET 10 | Angular & React | GenAI Expert

Bengaluru, India | +91-991-606-5866 | diliptripathy.net@gmail.com

PROFESSIONAL SUMMARY

Results-oriented Technical Lead with 14+ years of experience architecting, modernizing, and delivering enterprise-grade SaaS, healthcare, and government compliance web applications. Expertise in modernizing legacy architectures to .NET Core / .NET 10 and Angular (v8 to 18+), designing scalable microservices, and deploying robust RESTful APIs. Advanced in leveraging GenAI-assisted development tools (Claude, ChatGPT, GitHub Copilot, Cursor AI) to accelerate code migrations, refactoring, and automated test coverage. Proven track record leading cross-functional Agile teams of up to 15 engineers while driving cloud deployment across Azure and AWS environments.

CORE TECHNICAL COMPETENCIES

Backend & Architecture:	C#, ASP.NET Core (3.1 – 10.0), Web API, EF Core, Microservices, CQRS, Repository Pattern, Dependency Injection, LINQ
Frontend SPA:	Angular (v2 – 18+), React, TypeScript, JavaScript, HTML5, CSS3, Bootstrap
GenAI-Assisted Dev:	Claude, ChatGPT, GitHub Copilot, Cursor AI (Migration Acceleration, Code Refactoring, Unit Test Generation)
Databases & Data:	SQL Server 2022, PostgreSQL, NoSQL, Schema Design, Performance Tuning, Query Optimization
Cloud & DevOps:	Azure (App Services, Azure SQL, Repos, CI/CD Pipelines), AWS (EC2, S3)
Tools & Methodologies:	Visual Studio 2022, GitHub, GitLab, Agile/Scrum, RPA (Automation Anywhere)

PROFESSIONAL EXPERIENCE

Technical Lead — Infinite Computer Solutions (Bengaluru, India) Sep 2017 – Present

Clients & Programs: Iron Mountain / NCC Group (IPM), Bizx, JSI Track Now, Patient3D

- Team Leadership & Architectural Modernization:** Directed a 15-member engineering team on IPM (enterprise escrow & registry management platform); led end-to-end migration of legacy .NET Framework/Web Forms systems to ASP.NET Core 8.0 / .NET 10, and Windows Services to .NET Core Worker Services.
- Framework & UI Migration:** Upgraded core front-end applications from Angular 8 to 18+ and back-end services from .NET Core 3.1 to 8.0/10.0 across multiple programs, maintaining backward compatibility with zero business downtime.
- Microservices & Cloud Architecture:** Architected scalable microservices and RESTful APIs for HR/procurement SaaS (Bizx), government compliance tracking (JSI Track Now), and a HIPAA-compliant healthcare workflow engine (Patient3D).
- GenAI Productivity Integration:** Introduced GenAI tools (Claude, GitHub Copilot, Cursor AI) into sprint workflows, significantly accelerating legacy code refactoring, migration speeds, and unit test generation.
- End-to-End Delivery Ownership:** Managed requirements analysis, system architecture, sprint planning, deployment pipelines, and high-priority production support in Agile/Scrum environments.

Assistant Manager — EXL Service (Bengaluru, India) Jan 2015 – Aug 2017

- Engineered a configurable SaaS valuation platform and a healthcare transaction reconciliation platform using ASP.NET MVC, Web API, AngularJS, and SQL Server.
- Automated financial data reconciliation workflows and ERP data entry by integrating Robotic Process Automation (RPA) solutions with Automation Anywhere.

.NET Developer — Arctern Consulting (EXL Service) (Bengaluru, India) May 2014 – Dec 2014

- Developed web application modules, business logic layer components, and optimized database queries using .NET Framework, C#, and SQL Server.

Analyst Programmer — CSM Technologies Pvt. Ltd. (Bhubaneswar, India)

Dec 2011 – Apr 2014

- Built enterprise web applications for international and government sector clients utilizing ASP.NET, MVC, Entity Framework, WCF, and SQL Server.

EDUCATION

Master of Computer Applications (MCA) — Punjab Technical University

Bachelor of Computer Applications (BCA) — Punjab Technical University
