

VIDYASHREE

Technical Lead | Senior .NET Full Stack Developer

+91-7892502132 • vidyaumaluti@gmail.com • [linkedin.com/in/vidyashree-tech-lead](https://www.linkedin.com/in/vidyashree-tech-lead) • Bengaluru, India

EXPERIENCE

Technical Lead

Tech Mahindra

01/2024 – Present • Client: Netgear

- Led a team of 7 developers delivering enterprise applications and end-to-end production support
- Migrated a complete legacy application to the modern .NET framework and delivered React-based UI components
- Improved application performance by 30%, automated 15+ manual processes and reduced production incidents by 40%
- Conducted technical interviews, code reviews, mentoring and release planning; managed Git-based Agile delivery across an international team
- Recognized by Netgear leadership for successful modernization and consistent technical delivery

Senior Software Engineer

Wipro

03/2022 – 01/2024 • Client: Philips Signify (Netherlands)

- Engineered high-performance device communication drivers spanning hardware integration, PLC integration and Windows Services
- Partnered with the Netherlands engineering team as offshore Single Point of Contact (SPOC) for all development activities
- Optimized driver throughput and digitized 10+ manual business workflows through targeted automation
- Collaborated within a 10-member Agile team using Git for version control and pull request management
- Received client appreciation from Philips Signify for technical ownership and delivery excellence

Software Engineer

CMS Computers Ltd

06/2021 – 03/2022 • Client: Government of Karnataka – Bhoomi Land Records

- Maintained statewide Bhoomi land records applications serving 100,000+ citizens across Karnataka
- Built ASP.NET applications, SQL Server database objects and WCF services supporting daily land record transactions
- Provided production support and performance improvements, coordinating directly with District Commissioners
- Recognized by Government of Karnataka stakeholders for reliable delivery and system stability

Software Engineer

Sumeru Software Solutions

04/2019 – 05/2021 • Client: Government of Karnataka – Bhoomi Land Records

- Created citizen-facing land records modules using ASP.NET MVC, SQL Server and Web Services
- Implemented backend APIs and database objects for statewide land digitization initiatives
- Supported statewide deployments across 227+ taluk offices along with ongoing feature enhancements

Software Developer

PristineSofts Pvt Ltd

09/2017 – 04/2019 • Client: DRDO (Defence Research and Development Organisation)

- Architected a customised 3CX VOIP & ROIP unified communication system meeting defence-sector security requirements
- Built an offline-capable enterprise communication application enabling secure coordination without internet dependency
- Implemented VOIP and ROIP capabilities using C#, ASP.NET, .NET Core, MySQL, Python and PyQt5

Associate Software Developer | Delta Informatics Pvt Ltd • 11/2016 – 09/2017

- Designed and maintained ASP.NET web applications using C#, SQL Server and JavaScript

SUMMARY

Technical Lead with 9+ years modernizing enterprise and government applications across C#, .NET Core, ASP.NET, React, SQL Server and REST APIs. Leads teams through legacy migration, performance tuning and production support — improving application performance by 30%, automating 15+ manual processes and reducing production incidents by 40%. Drives releases, code reviews, stakeholder communication and technical hiring across Agile delivery for clients including Netgear, Philips Signify, DRDO and the Government of Karnataka.

KEY ACHIEVEMENTS

◆ Performance Improvement Leader

Improved application performance by 30% and cut production incidents by 40% through automation of 15+ processes.

◆ Legacy Modernization Lead

Led a 7-developer team migrating a legacy platform to modern .NET with new React-based components.

◆ Driver Performance Optimizer

Enhanced device driver performance and automated 10+ workflows; recognized by Philips Signify for technical excellence.

◆ System Stability Achiever

Sustained ASP.NET land-records systems for 100,000+ citizens across 227+ taluk offices with high reliability.

EDUCATION

B.E. in Computer Science

Govt. Engineering College, Raichur

2016

SKILLS

Technical: C#, ASP.NET, ASP.NET MVC, .NET Framework, .NET Core, React, JavaScript, HTML, CSS, Python

Architecture: System design, Microservices architecture, API design, REST APIs, WCF, Web Services, ADO.NET, Performance tuning

Engineering Leadership: Technical leadership, Code review, Mentoring, Stakeholder management, Release management, Agile, SDLC

Data & Tools: SQL Server, MySQL, Visual Studio, IIS, SSMS, Git, NUnit unit testing

Specialised: Hardware integration, PLC integration, VOIP/ROIP, Windows Services, Production support
