Objective

Software Developer and IT Consultant with approximately 2 years of professional experience across Government software development, technical training, hands-on solution implementation, and student project mentoring. Experienced in developing enterprise web applications, delivering technical training, and guiding students in software development, programming, and real-world project execution.

Technical Skills

- -Programming Languages: C#, Java, Python, JavaScript
- Frameworks & Technologies: ASP.NET, Web API, HTML5, CSS3, Bootstrap
- Database: SQL Server
- Concepts: Object-Oriented Programming (OOP), RESTful APIs
- DevOps & Tools: Git, GitHub, AWS, Docker, Kubernetes, Jenkins, Terraform
- Development Tools: Visual Studio, Visual Studio Code, SQL Server Management Studio (SSMS)

Core Competencies

- -Technical Consulting
- Technical Training
- Solution Implementation
- Software Project Mentoring
- Client Support & Stakeholder Communication
- Application Development

Experience

- **Smt.Kumudben Darbar BBA & BCA College, Vijayapura** 15-03-2025 - 30-06-2026
IT Consultant | Technical Training | Hands-on Solution Implementation
 - Delivered technical training in Java, Python, Data Structures, and Object-Oriented Programming.
 - Guided students in software development practices and real-world programming concepts.
 - Mentored students in completing academic assignments, mini projects, and major projects through hands-on technical support.
 - Assisted students in debugging, coding, database design, and application development.
 - Provided one-on-one technical mentoring and problem-solving sessions.
 - Conducted laboratory sessions emphasizing practical implementation and industry best practices.
 - Trained students in logical thinking, coding standards, and software development methodologies.
 - Facilitated personality development and professional communication sessions.
 - Technologies: Java, Python, Data Structures, OOP, Visual Studio Code, SQL, Git.
- **Kalika Infotech, Bangalore** 01-07-2024 - 14-03-2025
Software Developer
 - 1. BBMP**
 - Developed and managed modules for Masters and Applications.
 - Designed and implemented optimized SQL databases.
 - Created and enhanced stored procedures to improve database performance and wrote APIs
 - Conducted unit testing and debugging to ensure smooth functionality.
 - Documented and validated test results for high-quality project delivery.
 - Tools & Technologies: Visual Studio, ASP.NET, SQL Server.
 - 2. Audit Management**
 - Created and managed master data.
 - Designed a relational database schema to efficiently store and retrieve audit-related data.

-Implemented CRUD operations (Create, Read, Update, Delete) for managing master data efficiently.
Tools & Technologies: Visual Studio, ASP.NET, SQL Server.

- **DevOps Intern – StarAgile** Jan 2025 - Oct 2025
 - Worked with AWS, Linux, Docker, Kubernetes, Terraform, Jenkins, Git, and CI/CD pipelines.
 - Projects Keep FinanceMe – End-to-End DevOps Project under a separate Projects section.

Education

- **Karnataka University Dharwad** 2023
 - Master of Computer Applications
 - 7.1 CGPA
- **Tungal School of basic and applied Sciences, Jamkandi** 2021
 - Bachelor of Science in Computer Science
 - 74.75%
- **Chetana PU college, Vijayapura** 2017
 - PUC
 - 62%
- **Shams School, Vijayapura** 2015
 - SSLC
 - 68%

Languages

- English, Kannada, Hindi

Personal Details

- Date of Birth : 09/07/1999
