PROFILE

Frontend Developer with **2 years of professional experience** building responsive, scalable, and user-friendly web applications. Strong expertise in **React.js, TypeScript, and JavaScript (ES6+)**, with hands-on experience in **product-based platform**. Proven ability to translate UI/UX designs into high-quality interfaces, integrate REST APIs, optimize performance, and collaborate effectively within Agile teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3.	Frameworks & Libraries: React.js (Hooks, Functional Components), Next.js (App Router, SSR, SSG, ISR), React Router, Zustand, Redux, Redux-Toolkit, Context API	UI & Styling: Tailwind CSS, Material UI (MUI), Ant Design, Responsive Design, Cross-browser Compatibility
API Integration: REST APIs, Axios, Fetch, API Routes (Next.js), JWT Authentication (Basic), Error Boundaries	Performance: Code Splitting, Lazy Loading, Memoization, Virtualization, Pagination, Caching, Middleware, Lighthouse Optimization	Tools & DevOps: Git, GitHub (Branching & PR Workflow), Postman, Chrome DevTools, VS Code, Vercel, AWS (Basic), CI/CD Basics
Testing: Jest, React Testing Library.		

PROFESSIONAL EXPERIENCE

Frontend Developer Lanquill – AI English Learning Platform with a subscription-based model - Developed a bulk CSV upload feature for Reading, Listening, Speaking, Grammar, and Vocabulary (LSRGV) questions using React, TypeScript, and PapaParse, enabling large-scale content ingestion. - Collaborated with backend teams to integrate REST APIs and support dynamic UI updates with consistent error handling using error boundaries and modern React patterns. - Integrated pagination in the Manage Users page, efficiently handling 10K+ records by fetching data in smaller chunks, reducing initial page load time and server load by 80%. - Enhanced page performance by implementing optimization techniques like lazy loading and memoization, resulting in faster load times and improved experience. - Collaborated with cross-functional teams, including designers and managers, to ensure seamless UI integration and cross-browser compatibility across desktop and mobile devices for a consistent user experience.	Aug 2024 – Present Bengaluru
Frontend Developer NetAnalytiks Technologies – IT Consulting & Analytics Solutions - Developed responsive web interfaces for enterprise-level applications using React.js, JavaScript, HTML5, and CSS3. - Built interactive UI components to support data-driven and analytics-focused web solutions. - Implemented UI/UX improvements based on business and user requirements, enhancing usability and efficiency.	
Software Engineer Intern NetAnalytiks Technologies Limited - Developed responsive web pages using HTML5, CSS3, JavaScript and React.js with a focus on cross-browser compatibility, SEO best practices, and performance optimization. - Enhanced interactivity through DOM manipulation and collaborated with designers to build pixel-perfect layouts with modern CSS techniques. - Fetches and displays data from backend using REST APIs, enabling real-time UI updates.	Jan 2024 – Jul 2024 Bengaluru

PROJECTS

Lanquill – AI-Powered English Language Lab 
- Built interactive learning interfaces for English training modules. - Designed reusable UI components including dynamic forms, modals, dashboards, and content editors. - Implemented optimized rendering strategies for large datasets (10K+ records). - Focused on accessibility, clean UX, and performance optimization for production-level usage.

EDUCATION

BE.Computer Science and Engineering BGS Institute Of Technology	Aug 2019 – Aug 2023 B G Nagara
