Education

Bachelor of Engineering in Information Science & Engineering
Sahyadri College of Engineering and Management, Karnataka

2022-2026
CGPA: 7.78

12th Board - Science
Sri Chaitanya Pre University College, Mangalore

2020 – 2022
81%

Projects

Emotion Based Music Player — *Python, OpenCV, DeepFace, TensorFlow* 🌟 *

- Music player that detects human emotions through a webcam and automatically plays music based on the detected mood.
- Implemented real-time face detection and emotion recognition using OpenCV and DeepFace to analyze facial expressions such as Happy, Sad, Angry, and Neutral.
- Integrated a deep learning model with TensorFlow to provide accurate emotion classification and music recommendations.

Spaced Repetition System for Enhanced Learning — *MERN Stack, Python, NLP, NLTK, BERT/T5* 🌟 *

- A full-stack intelligent learning platform that converts uploaded PDF study materials into automatically generated question-answer sets.
- Developed an NLP pipeline leveraging spaCy, NLTK, pdfplumber, and transformer-based models (BERT/T5) for content extraction and question generation.
- Implemented the SM-2 spaced repetition algorithm to dynamically schedule personalized review sessions based on learner accuracy and confidence ratings.
- Built RESTful APIs and database models using Node.js, Express.js, and MongoDB, and developed a responsive React-based interface for adaptive learning, progress tracking, and performance analytics.

Sublytic Subscription Management & Analytics Platform — *React.js, Node.js, Express.js, SQLite3* 🌟 *

- Developed Sublytic, a subscription management platform for tracking recurring expenses, renewal dates, and subscription analytics.
- Implemented interactive spending trend visualizations to help users gain actionable financial insights.

Technical Skills

Programming Languages – C, Java, Python, JavaScript

Frontend – HTML, CSS, React.js, Tailwind CSS, Bootstrap

Backend – Node.js, Express.js

Databases – MySQL, MongoDB, SQLite3

Developer Tools – Git, GitHub, VS Code, Postman

Deployment Platforms – Render, Vercel

Experience

Software Developer Intern – Dregal I Private Limited

Developed and deployed a MERN Stack e-commerce application while contributing to frontend, backend, and REST API development.

Frontend Developer Intern – Wrench Solutions Pvt. Ltd.

Currently working on frontend development, migrating the company website using HTML, CSS, JavaScript, and Bootstrap while developing responsive and user-friendly web interfaces.

Certifications

Full Stack Web Development: Complete Web Development Course – Udemy

Python Certification – freeCodeCamp
