PROFESSIONAL SUMMARY

Strategic Software Development Lead with 15+ years of experience delivering high-concurrency Capital Markets and FinTech platforms. Expert in C#/.NET Core, SQL Server, Azure Cloud, and Agentic AI — building trading platforms (NSE/BSE), Mutual Fund portals, IPO systems, and enterprise backoffice solutions. Proven leader of cross-functional teams with end-to-end SDLC ownership, microservices architecture, and LLM-based automation.

TECHNICAL SKILLS

AI & Agentic Systems	Agentic AI, LLM Customisation, Semantic Kernel, Prompt Engineering, Python
.NET / Microsoft Stack	C#.NET, ASP.NET Core, MVC, Web API, VB.NET, Entity Framework, WinForms, Win Services
Data & Reporting	SQL Server, T-SQL, Stored Procedures, SSIS, SSRS, MFT
Cloud & DevOps	Azure (App Services, Functions, Cognitive), Azure DevOps, TFS, GitHub, SVN
Frontend	Angular JS, Node JS, React JS, JavaScript, HTML5/CSS3
Leadership	Agile/Scrum, SDLC, Burn-up/Down Charts, Resource Planning, Code Review

PROFESSIONAL EXPERIENCE

Software Development Lead | **Oracle Financial Services Ltd** (Client: Sumitomo Mitsui Trust Bank) [*Aug 2022 – Present*]

- **AI Innovation:** Pioneering Agentic AI & LLM-based agents to automate business logic; built ClientOnBoarding, DTDC/SWIFT integrations, and loan document management.
- **Architecture:** Leading .NET 6 Microservices architecture for high-volume FinTech products on Azure; designed Cash SI/Payment Automation and MFT data pipelines.
- **Agile & Delivery:** Full SDLC ownership across concurrent projects; daily scrums, backlog management, Burn-up/Down charts, stakeholder reporting.

Project Lead | **IIFL Capital Ltd** (India Infoline) [*Jan 2006 – Aug 2022*]

- **Team Leadership:** Led 15-member team; end-to-end SDLC, code reviews, mentoring, TFS/Redmine project tracking, sprint reporting.
- **Trading Systems:** Built all-exchange (NSE, BSE, MCDEX, MCX, SPOT) trading platform with Multicast UDP live rates, Order Window, Market Depth, Portfolio, Profit and Loss/SSIS reporting.
- **Capital Markets:** Governed FIX/FAST protocol integrations; 500+ stored procedures & 150 SQL Jobs for nightly financial processing; P&L, ledger, and compliance reporting.
- **Product Delivery:** Delivered 10 major platforms: Trading (Myaccount), Mutual Funds (MFOnline), IPO, NCD, SGB, Backoffice (Boswaraj), Accounting (DISC), Vendor Payment, Rent processing, Insurance Distribution, Fan Payout.

KEY PROJECTS
