

Sai Lakshmi

Full-Stack Engineer | React • ASP.NET Core • Microservices
+91-934-7595-845 • slpathakamuri@gmail.com • Bangalore, India • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack Engineer with 3+ years of experience delivering end-to-end products across React/TypeScript frontends and microservices backends (C#, ASP.NET Core, GraphQL, gRPC). At Apteon, shipped a production payment platform with JWT/RBAC security, reduced backend response times by 30%, and maintained 99.9% uptime on a real-time job tracking portal. Strong foundation in API design, Azure deployments, and database optimization.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Ant Design, Vite

Backend: ASP.NET Core (C#), REST API, GraphQL, gRPC, Microservices, Event-Driven Architecture

Databases & Cloud: Azure Cosmos DB, SQL Server, Azure, Docker, CI/CD (Azure DevOps), Git, Vercel

Testing & Other: xUnit, Unit Testing, JWT Authentication, RBAC, OpenAI API, Azure Functions, Agile/Scrum, SOLID Principles, Design Patterns

EXPERIENCE

Associate Engineer (Full-Stack Developer) | Apteon • Bangalore, India

May 2024 – Present

Payment Platform & Job Tracking Portal • React, TypeScript, C#, ASP.NET Core, GraphQL, gRPC, Azure

- Owned end-to-end feature delivery across a microservices-based payment platform — schema design to REST/gRPC API integration to React UI — with minimal oversight.
- Built 20+ reusable React + TypeScript components integrated with GraphQL APIs, iterating rapidly on direct stakeholder feedback.
- Designed and shipped secure payment workflows with JWT authentication and RBAC, making deliberate trade-offs between velocity and correctness under tight delivery windows.
- Engineered event-driven async processing pipelines, improving system responsiveness and reliability under production load.
- Optimized backend service performance by 30% under concurrent load via targeted query improvements, enhanced error handling, and structured logging.
- Led frontend architecture for a real-time job tracking portal — achieved 99.9% uptime while reducing job failure rate by 20% through proactive monitoring and root cause analysis.
- Built data-heavy dashboards with dynamic multi-filter views; wrote unit and integration tests using Jest and React Testing Library across releases.
- Participated in Agile/Scrum ceremonies; conducted code reviews, mentored interns, and delivered knowledge transfer sessions.

Software Developer Trainee (Internship) | Kaar Technologies • Remote

Oct 2022 – Apr 2024

- Developed and maintained client-facing web applications using React.js, ASP.NET Core, C#, and SQL Server, translating business requirements into scalable features while ensuring performance, usability, and code quality standards.
- Built reusable UI components and integrated REST APIs across multiple enterprise projects, improving development efficiency and delivering responsive user experiences for data-intensive business workflows.
- Collaborated closely with cross-functional teams throughout the software development lifecycle, contributing to feature implementation, debugging, testing, production support, and Agile ceremonies while consistently meeting project delivery timelines.

PROJECTS

Stock Nova — Real-time AI Stock Analysis Platform • React.js, .NET, OpenAI API, Jest, Vercel

2026

- Independently built & deployed a full-stack real-time stock tracking platform for Indian (NSE) & US markets — [GitHub](#)
- Integrated AI-powered news sentiment analysis delivering bullish/bearish predictions with confidence scores, impacted stock recommendations, and plain-English market explanations.
- Built live stock prices, 3-month history charts, watchlist, and price alerts; deployed on Vercel with CI/CD pipeline.

ACHIEVEMENTS & AWARDS

- Anna University Rank Holder — Secured a university rank in B.Tech IT; received a cash prize from Anna University.
- Best Student Award — Awarded at Prathyusha Engineering College for academic performance and contributions throughout the degree.
- Employee Recognition at Apteon — Acknowledged by leadership for 30% backend performance improvement, 20% job failure rate reduction, and 99.9% uptime.

EDUCATION

B.Tech in Information Technology • Prathyusha Engineering College, Tamil Nadu

2019 – 2023 | CGPA: 9.1/10
