PROFILE

I am a dynamic working in Security Operation professional with a robust background in safeguarding organizational through the implementation and managing the security areas. With my experience in Security Operation Center (SOC), Vulnerability Management, Endpoint Security, Email Security and Threat Intelligence & Hunting I consistently enhance security postures and protect digital environments. I thrive in collaborative settings that foster continuous learning and innovation.

SKILLS

CrowdStrike | Qualys | Sentinel | Splunk |
Microsoft Defender for Endpoint | SentinelOne |
Deep Instinct | Cylance | Fireeye | LogRhythm |
Mimecast | Cofense | Service Now | Dataminr |
Endpoint Security | Vulnerability Management |
Security Operation Center (SOC) |
Threat Intelligence & Hunting | Email Security |
SIEM | Security Incident Handling | EDR

PROFESSIONAL EXPERIENCE

12/2025 – Present
Bengaluru, India

Cyber Defense Engineer, GKN Automotive

Global leader in advanced automotive technology & engineering.

- Supporting security operations around all major key security function like security operation center (SOC), vulnerability management, endpoint security, and threat intelligence & hunting.
- Major responsibilities to monitoring the security alerts, identifying the security weakness in environment and proactively identifying the threat from multiple intelligence.
- Monitor and analyze alerts from multiple security solutions like SIEM, EDR, Vulnerability Management, Email Security, Identity and etc.
- Conduct incident triage to determine alert severity, impact and required further response.
- Hands on alert deep investigation analysis checking SIEM integrated logs from multiple log sources, EDR timeline logs, and email security mail flow.
- Document the incident timelines, root cause, corrective action, collect evidence and prepare incident summary or report.
- Work on improve the detection logic to refine rules, alerts and playbooks base on emerging attacks and threat intelligence.
- Identify the process gaps and blind spots outcome from hunting.
- Managing and monitoring the vulnerability management from Qualys includes assets inventory, dashboards, appliance status, scanning and etc.
- Hands on experience to perform vulnerability schedule scans across the environment for servers, endpoints and network devices.
- Work on analyze scan results to identify any true positive vulnerability and assets exploitability.
- Prioritize the vulnerability using the CVSS, exploit intelligence, detection score, assets criticality and etc.
- Hands on experience to raise the ticket for the vulnerability remediation and maintain the progress tracker.
- Validate the patch fix through VM console and perform the rescanning.
- Hands on experience to create tags, assets groups, create new appliance and configure new schedule/ on-demand scan.
- Experience of coordinating or collaboration with patching team, infrastructure, cloud, application and local IT team as need for containment, patching, remediation or any support.
- Collect and analyze the threat intelligence from various open source and vendor feeds.
- Proactively hunt for suspicious behaviour based on hypotheses or threat reports.
- Built the detection use case base on intel or use advance huntings for any successful result.

06/2022 – 12/2025
Bengaluru, India

- Share the intel and detection result with team for the further action like block any IOCs.

Security Specialist, HCLTech

A leading global technology company specializing in MSSP, EDR, Endpoint Security, SOC and SIEM services.

- Hands on experience on endpoint detection and response (EDR) and SIEM tool.
- Working in Security Operation Center (24x7), monitoring of SOC events, detecting, and preventing the Intrusion attempts using SIEM Tool - Splunk, Sentinel, LogRhythm and EDR tool - MS Defender, CrowdStrike, SentinelOne, Deep Instinct, FireEye, Cylance
- Performs real-time monitoring, security incident handling, investigation, analysis, reporting and escalations of security events from multiple log sources within the agreed SLA
- Creating & performing deeper investigations on the alerts and raising incident on ticketing tools (SNOW) for the security threats
- Hands on experience to adding Indicators, exclusions and find-tuning them from EDR tool
- Managing policies, group, device control rules and tool dashboard
- Maintaining KBA and SOP tracker to document known false positive alerts and procedure
- Prepare health check report on daily, weekly and monthly basis for Internal & External stakeholders
- Working on Rules and use cases fine-tuning and whitelisting activities
- Hands on experience on agent upgradation process for EDR security solution
- Hands on experience to fix non-compliance, unmanaged device and perform troubleshoot steps
- Hands on experience to implement Attack Surface Reduction (ASR) rule and find-tuning in environment
- Hands on experience on Service-now ticketing tool to manage tickets like incident, task, problem tickets, or change request and handling P1/P2 situations
- Creating and performing major changes running in environment
- Hand on experience in coordinating with end-user for investigation, technical support & troubleshooting
- Experience to raise and work with vendor case
- Hands on experience on email security
- Having knowledge to investigate alerts and phishing emails
- Working on dedicated Phishing emails and providing feedback to users
- Providing knowledge Transfer to members at necessary points and delivering works within timelines

EDUCATION

Secondary School Certificate (SSC),
Gujarat Secondary Education Board
2010 – 2011 | Gujarat, India

Higher Secondary Certificate (HSC),
Gujarat Higher Secondary Education Board
2011 – 2014 | Gujarat, India

Bachelor of Computer Applications (BCA),
SunRise University
2014 – 2017 | India

CERTIFICATES

MICROSOFT CERTIFIED: SECURITY, COMPLIANCE, AND IDENTITY FUNDAMENTALS
SC- 900 Certification in security, compliance, and identity fundamentals.

Certification number: 1401-3809

ETHICAL HACKING ESSENTIALS (EHE)
Certification in ethical hacking essentials by EC-Council.
Certification number: 315940

LANGUAGES

English | Hindi | Gujarati

INTERESTS

- Enjoys listening to music, traveling to exploring new places, and embracing new experiences.
- Seeking a challenging role where I can leverage my expertise to protect and enhance a digital environment from cyberattack.
