PROFESSIONAL EXPERIENCE

KredX (TREDS, ITFS & B2B SaaS) — QA Engineer - Intern

Jan 2026 – Present | Bangalore, India

- Analyzed business requirements to prepare detailed test scenarios and test cases for upcoming features.
- Performed Functional, Regression, Smoke, and Sanity Testing for multiple core application modules.
- Executed manual, end-to-end testing across Seller, Buyer, and Financier workflows of the Trading and DTX TREDS platform, identifying critical defects prior to production.
- Validated core business workflows, invoice processing, bidding functionalities, settlements, and user permissions.
- Logged, tracked, verified, and retested defects using JIRA.
- Collaborated closely with Developers, Product Owners, and Business Analysts to resolve defects efficiently.
- Participated actively in Agile ceremonies including Sprint Planning, Daily Stand-ups, Sprint Reviews, and Retrospectives.
- Performed API validation using Postman for backend services.
- Prepared daily testing reports and provided official release sign-offs after successful cycles.

Project: Trading & DTX TReDs Platform

A Trade Receivables Discounting System (TREDS) platform enabling MSME suppliers to upload invoices for goods and services. After buyer approval, banks and NBFCs (financiers) bid to finance the invoices at competitive discount rates, giving suppliers early payments while buyers clear dues on the original timeline.

Softionik Solutions (OPC) Pvt Ltd — Test Engineer

Jun 2024 – May 2025 | Mangalore, India

- Reviewed functional requirements and authored comprehensive test cases. Executed Manual Testing including Functional, Regression, Smoke, Integration, and Sanity testing suites.
- Logged and tracked lifecycle defects seamlessly using JIRA.

- Partnered with developers to reproduce complex issues and verify bug fixes. Participated in daily Agile Scrum meetings and sprint deliverables.
- Prepared daily testing metrics and logs to deliver reliable release sign-offs.
- Performed end-to-end cross-platform testing across Web, Mobile, and Admin modules to ensure a seamless user experience.
- Developed and maintained Selenium automation scripts using Java, TestNG, Maven, and Page Object Model (POM).

Project: Max Clean

An e-commerce hospitality platform featuring four primary modules: Admin Portal, User Web, Mobile App, and Delivery Boy App. Customers place orders via web/app, which are systematically assigned to delivery partners, while the admin module oversees users, orders, inventory, and operations.

Cognizant Technology — Senior Process Executive - Data

Oct 2023 – May 2024 | Bangalore, India

- Processed US Healthcare Insurance Claims accurately in compliance with client-specific guidelines.
- Utilized industry-standard medical coding practices including ICD-9, ICD-10, CPT, and HCPCS coding standards.
- Performed claim validations and meticulous quality checks to maintain high-tier precision data standards.

Medi Assist Pvt Ltd — Claims Executive

Aug 2019 – Jan 2023 | Bangalore, India

- Processed health insurance claims efficiently while maintaining strict corporate quality standards.
- Managed the categorization and segregation of medical and non-medical claims alongside accurate ICD disease coding.
